

## COURT OPENING STATEMENT

We are here because the NE Board of Engineers has accused me (Dennis A. Vodicka an agent for Standard Bridge Co., LLC) as representing a licensed Engineer which is false and have fine me \$10,000 which I considered very excessive fine.

I will prove that the Ne Board of Engineers has a vindictive attitude against me (Dennis Vodicka) since year 2001 when I presented a new design concept. **Which today, makes it very hard for me to believe that I will ever get fair trial by Ne Board of Engineers.**

I will prove that the Ne Board of Engineers has purposely discriminated against me, since 2001, has violated my Constitutional Rights, have violated my Civil Rights, and violated my VA Rights and they have fail to prove Intent of violating State Statue.

My goal is that the laws that the Ne Board of Engineers used against me is void as they violated my Constitutional Right and my Civil Rights, and my VA Rights, therefore unenforceable.

For the record, I have contacted over 50 Lawyers and even asked the Court for help in finding an Attorney for me. All the Lawyers I contacted turned me down, once I told them I was fighting the Ne Board of Engineers. So, I am left here Defending myself under protest.

Clarification when I mention the word "me "or "I" it will mean Dennis A. Vodicka an agent of Standard Bridge Co., LLC.
