

QUESTION FOR WILBECK, Ne Board of Engineers

1. How many years have you been in the Engineering Profession as a Structural Engineer?
2. Why did it take 8 years for the NE Board of Engineers to come after me an agent of Standard Bridge Co., LLC and Standard Bridge Co., LLC web site? (ref April 14,2009, Aug 22,2012)
3. Why did the NE Board of Engineers did away with the Apprenticeship & Grandfather Provisions back in 2001? Under which I was practicing and could have been Licensed under!
4. How does one promote a new Design concept to the people. After it has been load tested at UNO Engineering lab. Where test results show that this Bridge girder has an overload capacity! But Under current NE Board of Engineering Laws it is illegal.
5. What was my title at the Nebraska Department Roads – Bridge Division before 2001? (Assoc. Engineer III with 15 years of experience. Why in 2002 the NE Board of Engineers had it change to Bridge Designer II)
6. Who is the name of the individual, my accuser, that reported me to the NE Board of Engineers, that claim, I have been practicing Engineering without a license through Standard Bridge Co., LLC?
7. Are the NE Board of Engineers, required to follow the Constitutional Laws & Civil Right Laws, VA Right laws, of the United States, when it holds its Hearings?
8. Are you a licensed Lawyer? (How do you interpret the law at the NE Board of Engineers Hearing?)
9. Of all the documents, where you stated to me as of having committed a crime, not once did you or the NE Board of Engineers explained my rights before, you held your Hearing, why wasn't this done?
10. Do you think, legal documents should have errors in it, when it's for a legal hearing?
11. Do you think all the interested parties should have been notified prior to the NE Board of Engineers Hearing, of these errors?
12. Would you read the one paragraph of my Affidavit starting with the date March 29,2007, an explain to the court, why a licensed Engineer would make such a statement to me?
13. Would you read the one paragraph of my Affidavit starting with the date "late spring 2006," and explain to the court, why a licensed Engineer would make such a statement to me?

14. What is the fine for a first-time offense when trapped in the NE Board of Engineers Court?

15. Would you agree, with my 32 year as a Structural Bridge Designer for the State of Nebraska, Department of Roads, and Assoc. Degree and a Certificate of training for Military Engineering School, could be licensed here in Nebraska! (Are you saying a 4-year degree outweighs 32-year experience).

16. At the NE Board of Engineers do you have to show intent to the Board of Engineers before you can find the victim of a code violation?

17. Why is a victim, of the NE Board of Engineers Court is considered Guilty first when the Board holds its Hearing?
